Re: 123-15937
Second Administrative Amendment to
Part 70 123-7418-03259

Dear Mr. Thomas:

J. H. Rudolph & Company, Inc. was issued a Part 70 permit on May 27, 1999, for the operation of a stationary asphalt concrete batch plant. A letter requesting permit changes was received on April 29, 2002. The changes are related to the addition of a 200 ton hot mix asphalt storage silo with negligible emissions. According to 326 IAC 2-7-11(a)(8), an administrative amendment may be used for a change that "revises descriptive information where the revision will not trigger a new applicable requirement or violate a permit term". The changes requested meet this requirement, therefore pursuant to the provisions of 2-7-11 the permit is hereby administratively amended as follows (~~strikeout~~ to show deletions and **bold** to show additions):

A.3 ~~Specifically Regulated~~ Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-7-4(c)]
[326 IAC 2-7-5(15)]

~~This stationary source does not currently have any~~ **This stationary source also includes the following** insignificant activities, as defined in 326 IAC 2-7-1 (21): ~~that have applicable requirements.~~

(1) One (1) hot mix asphalt storage silo, with a maximum storage capacity of 200 tons.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Madhurima Moulik, at (800) 451-6027, press 0 and ask for Madhurima Moulik or extension 3-0868, or dial (317) 233-0868.
